District

- * The 2013 calculations were used to assign the grade for Clarkdale's district-level grade assignment.
- ** The district-level QDI for Corinth was determined by using a weighted average of the 2013 QDI of the elementary and middle school with the 2011 QDI from the high school combined with the district's 2013 graduation rate.
- *** The 2011 calculations were used to assign the grade for Gulfport's district-level grade assignment.

School

- * The 2013 calculations were used to assign the grades for all schools in the Clarkdale's Municipal School District.
- ** The grade assigned to Corinth HS was determined by combining their 2011 QDI and growth calculations with their 2013 graduation rate.
- *** The 2011 calculations were used to assign the grades for all schools in the Gulfport School District.
- **** The 2012 calculations were used to assign the grade for E. Kemper Attendance based on the Internal Review Committee's decision.

(E) = Excellence for All

School with no grade, QDI, etc. are school configurations which are not assigned accountability results (K-1, K-2 schools, etc.)

¹The High School Value (HSV) is the result of adding the school's/district's QDI and its 4 Year Graduation Rate.
